

Welcome to Jakobstad!

We will wish you all welcome to Optima in Jakobstad during EURIAC mobility 14th-25th of January 2013. To make your stay convenient and nice we will inform you about some arrangements.

You can see the central of Jakobstad in the map enclosed. As you see everything you may need is on short walking distance from Optima.

You are going to stay at our students' home just across the street "Pedersesplanaden". You will have single rooms with your own bathroom/shower. The rooms and beds will be fully equipped for your stay. From Monday to Friday you will be served breakfast, lunch and dinner at Optima. All these facilities for 50€/person for two weeks.

During the weekends the school is closed so you have to arrange your meals yourself. We have kitchens in the accomodation so you can make your own food if you want or you can have your meals somewhere in the town restaurants. Most of the students normally living in the accomodation go home for the weekends.

Please notice that it may be very cold in Jakobstad at that time. The last two weeks the temperature has been between -15C and -25C so you have to wear warm clothes when you are outside. You will definitely need your "longjohns" now. A warm hat, a sweater under your winter jacket and warm mittens will be needed and warm shoes. If you do not have such winterclothes we can arrange them for your stay during the first days. If you want to be prepared you should check the weather forecasts on Internet.

We have some plans for outdoor activities during your mobility. We will inform you about these later when we know more.

We wish you an unforgettable stay in Jakobstad!

Christian & Tommy
